Shweta Kushwaha

B.Tech Computer Science & Engineering | Symbiosis Institute of Technology, Nagpur

PROFILE

Computer Science and Engineering student interested in AI/ML, deep learning, software development, and user-centered digital experiences. Building practical skills through academic projects and a UI/UX design internship.

EDUCATION

Bachelor of Technology — Computer Science and Engineering
Symbiosis Institute of Technology, Nagpur

TECHNICAL & DESIGN SKILLS

Python, C, HTML, CSS, JavaScript, machine-learning concepts, LSTM/time-series concepts, deep-learning project work, Figma, FigJam, UX research, user flows, wireframing, and prototyping.

SELECTED PROJECTS

- **Hypoglycemia Monitoring Using Advanced Deep Learning** — Current PBL project exploring deep-learning approaches for glucose-data monitoring and potential hypoglycemic-event identification.
- **AQI Prediction System Using LSTM** — Previous PBL project exploring time-series forecasting of Air Quality Index patterns using Long Short-Term Memory networks.
- **Autonomous Context-Aware AI Agent for Personalized News Briefing** — PBL project concept for gathering, prioritizing, and summarizing news based on user interests, context, and available reading time.
- **Mid-Day Meal Nutrition & Wastage Tracker** — Soft Computing project focused on meal nutrition and food-wastage tracking.
- **FinTrack — Personal Finance App** — UI/UX case study covering UX research, personas, user journeys, wireframes, high-fidelity screens, and interactive prototyping.

INTERNSHIP EXPERIENCE

UI/UX Design Intern | Maincrafts Technology — 20 May–20 July 2026
Worked on the FinTrack personal finance app concept using Figma. Contributed to UX research, personas, journey maps, user flows, wireframes, high-fidelity UI screens, and an interactive prototype.

TRAINING & CERTIFICATES

- **Red Hat** — Certificate of Attendance: Network Automation with Red Hat Ansible Automation Platform (DO457 - RHA), Ver. 2.3; 32 credit hours; dated 29 September 2026.
- **Infosys** — Data Structures and Algorithms using Python — Part 1; course completed 30 October 2025, certificate issued 23 November 2025.
